IMPERIAL LINEMARKING

Capability Statement
Car Park, Road & Highway Markings • Safety Markings • Wheel Stops & Bollards • Anti-Slip Coatings

Business Overview

Imperial Linemarking is an owner-operated line marking business based in Yarrabilba, Queensland, servicing Brisbane, Logan, the Gold Coast, Ipswich and surrounding areas, with projects further afield by arrangement.

Led by Liam Squire, whose experience includes working as a Line Marking Hand Crew Leader, Imperial provides new line marking, repainting and associated installation services for commercial properties, residential communities, industrial sites, car parks, roads and highways.

Clients deal directly with the person delivering the work, from the initial site visit and quotation through to completion. Our focus is on clear communication, careful set-out and a clean, professional finish.

Core Capabilities

Car Park, Road & Highway Markings

- New car park layouts and repainting of existing markings.
- Road and highway markings.
- Parking bays, numbering and directional arrows.
- Accessible parking bays and shared-zone markings.
- Pedestrian crossings, walkways and safety zones.
- Chevrons, exclusion areas and no-parking markings.
- Custom lettering and stencilling.

Safety Installations

- Wheel stop supply and installation.
- Bollard supply and installation.
- Associated markings for parking and pedestrian areas.

Anti-Slip Floor Coatings

- Waterborne and cold applied plastic anti-slip floor coatings.
- Defined pedestrian routes, safety areas and designated floor zones.

IMPERIAL LINEMARKING

Equipment & Delivery

Imperial operates Graco LineLazer spray machines, supported by a dedicated ute and trailer.

Our approach includes site assessment, measured set-out, chalk-line alignment and taped edges where required. Work is planned around site access and operational requirements to minimise disruption to occupants, customers and staff.

We are available for direct client projects and subcontract line marking work.

Selected Project Experience

Sunnybank — Car Park Refresh
Repainted parking bays and wheel stops, with yellow chevrons, lane markings and 600 mm “NO PARKING” lettering. Careful set-out and edge taping helped straighten existing markings and produce a consistent finish.

Mundoolun — Accessible Parking Area
Completed an accessible parking bay with an adjoining shared zone and safety bollard, including set-out, masking and application.

Park Ridge — Australia Post Site
Installed new parking bay markings, with completed works documented through ground-level and drone photography.

Why Imperial Linemarking

- **Direct owner involvement:** One point of contact for quoting, scheduling and delivery.
- **Attention to detail:** Careful alignment, defined edges and consistent presentation.
- **Practical site planning:** Work coordinated around access and day-to-day site use.
- **Clear scope and pricing:** Itemised quotations tailored to the work required.
- **Local service:** Based in Yarrabilba and positioned to support projects across South East Queensland.
